How much does a 100kW Solar System cost in India?

The growing popularity of solar, government incentives and competition among solar companies are some of the reasons behind this. The price of a 100kW solar system depends on its type as well as solar brands. However, the price of 100kW solar systems ranges from Rs.35/watt to Rs.50/watt in India.

What is a hybrid 100 kW solar system?

Hybrid 100 kW solar systems have three priorities for running electric load; first is solar power, second is grid or government electricity and third is solar batteries. This means that you will have power even if there is a power outage. Just like an on-grid solar system, this solar system also supports net-metering.

What is a 100kW Solar System?

It's a large capacity solar system that generates 12000 units per month. It is appropriate for businesses with a high energy usage, who receive annual bills of around Rs 10,00,000. A 100kW solar system consists of high-quality components such as solar panels and a solar inverter.
