

Aa 1 2 v solar battery New Zealand

Which batteries are compatible with vectral solar lights?

See which stores have stock Ni-MH rechargeable AAA batteries, compatible with Vectral solar lights. Vectral Ni-MH Rechargeable Solar Batteries are suitable for use in all Vectral solar lights. This 2 pack of 800mAh batteries will give you all the power you need to ensure your lights remain at their peak operating performance.

Can you use batteries in a solar light?

If using the batteries in a solar light, only solar rechargeable batteries should be used. Using standard batteries may damage the light. I bought a solar light from Home Depot and it had a 18500 600 mah 3.2 volt solar battery in it . I am guessing you do not sell them because I am unable to find them on your site ... Thank you for your question.

Are solar batteries good for outdoor lighting?

Customers say the batteries are generally effective for outdoor lighting, with many noting their ability to hold a charge well after adequate sunlight exposure. However, some users experienced issues with battery sizing and longevity, with a few reporting that certain batteries did not fit or hold a charge as expected.
