

Aluminum row of energy storage cabinet

Company Since 1998 Industrial / Commercial Energy Storage System Application: EMS system, Interchanger, Monitoring Software, UPS, Solar system, etc. Technology: LithiumIron Phosphate (LiFePO4) Voltage: 716.8V -614.4V-768V-1228.8V Capacity: 280Ah Cycle life: ≥ 6000 times Operation Temp: $-20^{\circ}\text{C} \sim 60^{\circ}\text{C}$ Customizable batteries: voltage, capacity, appearance, ...

Store it, pour it, floor it. Our shelving units are created specifically with the top-of-the-line 5052 aluminum and built using CNC equipment and CAD designs. We work with you to craft the ultimate garage. Powder coating, precision fasteners and hardware, and clear anodized finish make these cabinets a lifelong asset.

Aluminum redox batteries represent a distinct category of energy storage systems relying on redox (reduction-oxidation) reactions to store and release electrical energy. Their distinguishing feature lies in the fact that these redox reactions take place directly within the electrolyte solution, encompassing the entire electrochemical cell.
