for solar-rich environments. Working closely with its distribution partners, Amped serves hundreds of thousands of families and ...

Amped Innovation is a designer and manufacturer of high-performance off-grid, solar systems and appliances for solar-rich environments. Working closely with its distribution partners, Amped serves hundreds of thousands of families and small businesses in need of reliable, clean energy across Africa and Asia.

Amped's certified distribution partners install each solar lighting kit to ensure optimal performance and offer remote maintenance via phone to improve reliability and asset uptime. Remote customers don't have to wait for an in-person field technician to service them and can get their systems up and running more efficiently.

Amped builds durable, high-performance solar products at the lowest cost possible with the goal of bringing clean energy access to all. Designed with fewer parts and remote serviceability, Amped saves customers time and money, keeping electronics running longer. Nothing is ...

Amped Innovation is a designer and manufacturer of high-performance off-grid, solar systems and appliances. We are active in over 30 countries and are focused on creating affordable products for solar-rich markets, working closely with our ...

Amped Solutions leverages experts in the design, construction, financing, and operation of commercial and industrial solar and energy storage projects. We own energy storage systems ourselves and are quite familiar with the changing regulatory, tax, operations, maintenance, and monitoring challenges of this asset class.

Ever since we went solar, we usually only pay an administrative fee of \$1.71 in the summer months, and our winter bills are around \$180 to \$250. Can't say enough good things about the solar program and Amped on Solar specifically. Luke and Kristin were a pleasure to work with, honest and genuinely caring. Thank you Kristin and Luke!"

Four years ago, via executive order, Rhode Island set a goal to meet 100% of the state's electricity demand with renewable energy by 2030. The General Assembly and the current governor have since pushed that goal to 2033 with legislation that instituted annual increases in the state's Renewable Energy Standard.. Rhode Island has a wealth of untapped residential, ...
