ANENJI 51.2V 100AH Powerwall LiFePO4 wall-mounted battery can store a large amount of energy while occupying relatively little space. With its LiFePO4 chemistry, it offers a longer lifespan and more charge cycles. The wall-mounted design saves floor space and is easy to install, making it ideal for home use.

In recent years, with the rapid advancements in battery technology, LiFePO4 (Lithium Iron Phosphate) batteries have continuously grown in market presence. With their higher safety, better economy, and longer lifespan, they have become a focus in the energy storage sector. Understanding the lifespan of LiFePO4 batteries

ANENJI Energy is a leading manufacturer of solar inverters, solar charge controllers, and LiFePO4 batteries. Over time, ANENJI Energy has become one of the top providers of solar inverters in the industry. Today, there are over 100,000 ANENJI systems installed around the world, and the list continues to grow.
