Why should you choose a Volvo Penta Bess subsystem?

Volvo Penta's BESS subsystems provide you with an energy-dense solution with an advantageous C-rate. This helps ensure efficient energy storage with rapid charge and discharge capabilities, which is ideal for applications where energy reliability and swift power delivery are crucial.

Will Volvo Group & Volvo energy co-develop a Bess product?

16 Sep 2023 by solarpowerportal. The two companies will co-develop a BESS product that will use batteries from Volvo Group's electric buses, trucks and machines. Image: Volvo Group/Volvo Energy.

Why is Volvo launching a Bess solution?

The company said the launch of a BESS solution is a strategic move to supplement its power generation business and tap into a new segment. A spokesperson for Volvo Group told Energy-Storage.news that the product is a sub-system rather than a full containerised solution.

Does Volvo energy use e-Stor Bess technology?

Volvo Energy, part of the automotive and engineering company Volvo Group, is already using UK-based second life BESS firm Connected Energy's existing E-STOR BESS technology at its facility in Gothenburg, Sweden, which it is using to test and review the tech's response rate to the Swedish electricity grid.

Why should you buy a Volvo Penta Bess?

The Volvo Penta BESS offer demonstrates high-power output from an energy-dense and small footprint. With its origins in heavy-duty design, and being optimized for tough environmental conditions, the battery system is an excellent option for BESS applications.

How scalable is Volvo Penta?

From just one, to as many units as are required for the OEM's BESS applications, Volvo Penta's solution is scalable up to hundreds of mega-watt hours (MWh) in energy. Volvo Penta's value-added systems-supplier approach ensures that its offer is deployed in a holistic way to manufacturers.

The Angolan capital of Luanda is modernising and expanding its public transport system with 153 new accessibility-optimised Volvo buses. In addition to the buses the agreement covers financing, servicing and other aftermarket services via the local Volvo Buses partner, Auto Sueco Angola. This holistic approach secures both accessibility and uptime for ...
