What is the Solar Energy Association of Ukraine?

The Solar Energy Association of Ukraine fosters the development of solar energy in Ukraine by uniting the solar market, facilitating the exchange of experiences, and consolidating the efforts, ideas, and interests of all participants within the solar community.

What does 'Solar supports Ukraine' mean?

Every contribution will go a long way." "The Ukrainian Solar Energy Association is proud to launch the 'Solar Supports Ukraine' campaign together with European solar industry associations. The campaign aims to provide solar energy benefits to people in need across Ukraine.

Where does solar energy come from in Ukraine?

Solar power in Ukraine is obtained from photovoltaics or solar thermal energy. [not verified in body] During the 2022 Russian invasion of Ukraine, the Merefá solar energy plant in the Kharkiv region was destroyed by Russia; damage was also reported at the Tokmak solar energy plant in the Zaporizhia region.

How much solar power does Ukraine have?

In March 2019 the power of residential solar was an average of 21.5 kW per family. In western Europe residential solar is typically 3-5 kW per household. As of March 31, 2019 there were 8,850 households with rooftop solar in Ukraine, with a total capacity of 190 MW. Investments in these power plants amounted to about 180 million euros.

Why is solar energy important in Ukraine?

The campaign aims to provide solar energy benefits to people in need across Ukraine. Solar energy has a great potential for providing electricity and heat where the centralised supply is not possible due to the war. Every solar kilowatt matters."

Is solar a good option for small businesses in Ukraine?

Solar is also suitable for many small and medium-sized enterprises. Households in Ukraine tend on average to have larger rooftop solar PV systems than in other countries. The feed-in tariff is available for larger systems and from 2020 may be up to 50 kW and can be both rooftop or ground mounted.

The largest specialized association of the solar industry in Ukraine, which unites investors of utility-scale PV plants, EPC contractors and developers, PV service companies, manufacturers of equipment for PV plants, distributors and installers of small PV stations, specialized in energy, legal and consulting companies, insurance and transport ...
