

Badger energy Singapore

What is Badger Energy?

Badger Energy is a master distributor of multi award-winning renewable energy products, established in 2020 with a mission to stimulate business-led market interventions, advancing a low-carbon economy throughout the EMEAA region.

Should Singapore import low-carbon electricity?

In 2021, Singapore set its sights on importing up to 4GW of low-carbon electricity by 2035. Since then, it received over 20 proposals from multiple countries, demonstrating the viability of low-carbon electricity imports as a pathway for decarbonising the power sector, said EMA.

How is Singapore achieving a net-zero emissions goal?

Today, 95% of our energy is produced using natural gas and we are transitioning to cleaner energy sources to combat climate change. As Singapore works towards its net-zero emissions goal, we are improving the efficiency of our gas-fired power plants.

Does Singapore need a reliable energy source?

As Singapore transitions towards cleaner energy sources, reliable and sufficient energy sources are needed to ensure supply reliability. Natural gas will continue to be a dominant fuel for Singapore's electricity generation even as we scale up the other 3 Switches.

Will Singapore import clean electricity by 2035?

Singapore has already signed agreements with Indonesia, Cambodia, and Vietnam to import some 5.6 gigawatts (GW) of clean electricity by 2035 - which is close to half of the 13 GW of Singapore's generation capacity in 2023.

How has Singapore's Energy story evolved over the years?

Over the years, Singapore's energy story has evolved in tandem with the growth of the country. 1. Singapore is progressively greening its energy mix. Singapore's energy mix has changed significantly over the decades. Fuel oil once powered our growth as a key trading hub until we switched to imported natural gas in the early 2000s.

Singapore is exploring emerging low-carbon technologies such as hydrogen and carbon capture, utilisation and storage (CCUS) that can help reduce Singapore's carbon footprint in the longer term.
