AqSol uses sun and freshwater for sustainable living in the Bahamas. AqSol offers seawater desalination units in several sizes as well as solar power installations, ideal for island living.

The passing of Hurricane Matthew in October last year was the first big test for the strength of the solar panels mounted on the roof. The hurricane hit Nassau as a category 4 storm with heavy winds pushing more than 130 MPH. During that time two large steel garage doors were blown out but not a single solar panel moved.
