

Battery company in Kazakhstan

Will Kazakhstan gain market share in battery materials?

The country wants to gain market share in battery materials such as lithium, cobalt, manganese, nickel and graphite amid rising demand for the materials, Sharlapaev said. Kazakhstan already mines manganese, but last year it launched processing of manganese sulphate and aims to eventually capture 10% of the global market for the battery material.

Why is Kazakhstan launching new EV exploration licences?

Kazakhstan aims to boost output of metals needed for electric vehicle (EV) batteries and is issuing hundreds of new exploration licences to attract fresh investment in the sector, the country's industry minister told Reuters.

Which German company is going to produce rare metals in Kazakhstan?

According to the minister, Bergbau is the first company from Germany that is going to produce rare metals in Kazakhstan. In contrast, Chinese companies have been working in this sector in Kazakhstan for a long time. The German company will run two lithium fields in the East Kazakhstan region. The amount of investments is expected at \$700 million.

Who owns 51% of a Kazakhstani business?

German public company Bergbau has bought 51% of shares of a Kazakhstani business. The German company is now its major stakeholder... They run lithium fields in the eastern part of the country. The exploration work is already done and now we are talking about production, he told journalists.

Is Kazakhstan a major supplier of uranium and titanium?

Kazakhstan is a major global supplier of both uranium and titanium. It also holds 2% of world nickel reserves, but has, for now, a negligible share in its global output. The country has also yet to tap its deposits of lithium, another key metal, but exploration is underway.

Are Chinese companies in Kazakhstan competitive?

In regard to Chinese companies which operate in Kazakhstan, Karabayev described them as highly competitive. Chinese companies process more than 70% of all rare metals produced in the world. Some businesses from Canada and South Korea are also showing interest in rare metals in Kazakhstan.
