Founded in 2011 by an electrical engineer, Marco Valle, Pro Solar Engineering provides Belize with reliable renewable energy services. Pro Solar provides turnkey solutions which involve evaluating our clients' energy needs and subsequently designing, installing, and maintaining renewable energy systems that meet their needs specifically.

Solar or Photovoltaic (PV) Systems are custom-designed to meet your Residential, Commercial or Agricultural Power needs. All systems are designed using high-performance components manufactured to withstand Belize's demanding climate, guaranteeing that your investment is worthwhile and rewarding.

Established in 2011, Pro Solar Engineering has become the top renewable energy solutions provider in Belize. With decades of combined experience, our Engineers and Technicians understand what is necessary to design, assemble and maintain systems in either Solar, Wind, Hydro or a Hybrid of these systems.

Solar Turbines is a global leader in providing energy solutions and takes a great pride in calling Slovakia its home since 2021. Solar Turbines Slovakia mainly focuses on providing and supporting digital solutions in the areas of software product development, data acquisition, machine learning, cybersecurity, user & customer experience ...
