Renewable energy here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal energy. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included.

zainab_ruma on November 1, 2024: "Bagaja Renewables had the distinct honor of receiving the Honorable Minister of Power today at the Zawaciki 1MWp interconnected mini-grid. This visit comes at a crucial time as Northern Nigeria faces a prolonged blackout, highlighting the urgent need for alternative power solutions. In the midst of this crisis, the Zawaciki mini-grid has been ...

Kano Electricity Distribution Company (KEDCO) in partnership with a Consortium of Weisky (a Chinese EPC firm) and Bagaja Renewables is set to embark on the execution of 1MWp interconnected solar ...

The distribution company is a key partner in every community we operate - from site selection to energy delivery. For our interconnected mini-grid sites, we buy power from the grid and provide a blended - and cheaper - tariff to communities and businesses.

Kano Electricity Distribution Company (KEDCO) is pleased to announce that a Consortium of Weisky (a Chinese EPC firm) and Bagaja Renewables is set to embark on the execution of 1MWp interconnected solar mini-grid projects in Hadejia, Gumel, Kafin Hausa, Ringim, Dutse and Kazaure communities of Jigawa State, in line with our strategic partnership ...
