

Bermuda new use energy solutions

How will the energy plan impact Bermuda?

The Renewable Energy (RA) is confident that the energy plan will help to stabilize the cost of electricity in Bermuda. It will also provide jobs to construct and support the new renewables infrastructure, increase investment opportunities for local and international investors, reduce Bermuda's dependency on fossil fuels, and place Bermuda significantly ahead of its renewables target.

Is energy a real opportunity in Bermuda?

Energy is very expensive in Bermuda, with electricity costing approximately 40 cents a kilowatt-hour, almost 20 cents of which is attributed to fuel. The company sees an opportunity to do in Bermuda what it is doing in the US Midwest in terms of replacing fossil fuel energy generation with renewables.

Where can I get electricity in Bermuda?

Electricity for residential - mostly at 120V - heating, lighting, cooking and cooling is provided exclusively in Bermuda by the Bermuda Electric Light Company Limited (BELCO) at 27 Serpentine Road, Pembroke HM 07, Bermuda. Telephone (441) 295 5111. Fax (441) 292 8975.

Are offshore renewable resources needed in Bermuda?

"Due to Bermuda's land constraints, offshore renewable resources are needed to reach higher levels of renewable generation. "Floating solar resources have previously been mostly in ponds and reservoirs but are more recently being developed for the ocean.

News that the island was to become a test bed for renewable energy sources has been welcomed by environmentalists. Karen Border, the executive director for the Bermuda National Trust, said the...
