Where is Bess project located in Tashkent?

The PV plant and the BESS facility are situated 3.5 km apart, within Yuqorichirchik District and Parkent District respectively. Both districts are located within Tashkent Region. The overall project location lies about 20 km from Tashkent City.

What does Bess stand for?

The Project will also involve the establishment of a 500 MWh AC-coupled Battery Energy Storage System (BESS). The BESS will operate on an independent basis (separately from the PV plant) and be developed close to the existing sub-station. The BESS facility will serve the following main functions:

What does PPA stand for in Uzbekistan?

cultural heritage exploration area south-west of the site. On 19 March 2023, the National Electric Grid of Uzbekistan (NEGU) JSC executed a Power Purchase Agreement (PPA) with the Project Developer and Project Company. The agreement requires the Project Company to construct the PV power plant, BESS, and underground interconnection powerline.

What is a Bess project?

The project aims to expand clean and reliable electricity access to approximately 75,000 households. The project marks Central Asia's first renewable energy initiative with an integrated BESS component.

Who is the O&M contractor in Uzbekistan?

NOMAC Maintenance Energy Services is the main O&M Contractor appointed for O&M support under the Project Company. The Government of Uzbekistan commissioned the solar resource assessment in March 2023, and the study was undertaken by The Project Developer.

Is Uzbekistan a good country?

It should not be relied upon by any other party or used for any other purpose. Uzbekistan is amongst the fastest growing economies in the Central Asian region, with an increasing demand for energy.
