

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced ...

The Sable Blanc BESS will timeshift the solar PV to the evening once production tails off under a 20-year tariff agreement and will replace diesel generator capacity. The existing BESS in Toco is mainly providing frequency ...

A new tender from the Solar Energy Corporation of India (SECI) seeks 2,000MW of solar PV combined with 1,000MW/4,000MWh of energy storage system (ESS) technology. ... The corporation has also launched India's biggest standalone BESS tender to date, seeking 1,000MW/2,000MWh aggregate output and capacity, as reported by Energy-Storage.news at ...

Hitachi Energy has won a tender to supply a large-scale battery energy storage system (BESS) in the Northern Territory, Australia. ... "The awarding of the BESS tender is a huge step forward in our plan for 50% renewables by 2030 - it is the cornerstone of our Darwin-Katherine System Plan," NT renewables and energy minister Eva Lawler said.

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely by the company, the hybrid project is claimed to benefit from a guaranteed sales price for 20 years.

Tenders have been vital in driving forward the adoption of energy storage in the country, including pumped hydro and batteries, helping bring down costs and stimulating investment appetite. A couple of weeks ago, SECI also launched India's biggest tender for standalone BESS capacity to date, seeking 1,000MW/2,000MWh of resources.

Voltalia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", ...

French RE developer Voltalia has recently announced the commissioning of its Sable Blanc power plant combining solar photovoltaic production and battery energy storage in French Guiana. Developed entirely ...

Bulgaria's Ministry of Energy has launched two tenders to add 1,425MW of renewable power generation to the grid and 350MW of battery energy storage system (BESS) projects. The ministry said the main objective ...

Bess tenders French Guiana

The proposed BESS would be more than double the size of the Victorian Big Battery, currently Australia's largest BESS. Image: Victoria State government. The state government of New South Wales (NSW) in Australia is opening up a competitive procurement process for Waratah Super Battery, a 700MW/1,400MWh battery energy storage system ...

Government-owned SECI launched the pilot tender last April, seeking bidders for the delivery of two equally sized 250MW/500MWh battery energy storage systems (BESS). These will be installed at adjacent sites to connect to India's Inter-State Transmission System from a substation in Fatehgarh in the state of Uttar Pradesh.

The successful participants in the second round of Greece's auction for financial support of large-scale BESS have been revealed. The Regulatory Authority for Energy (RAE) of Greece revealed the shortlist of ...

The brand new 10MW/11.3MWh battery energy storage system (BESS) is shipped today from Entech smart energies facilities to its sunny French Guiana final destination. Entech smart energies is extremely proud to have been selected by Voltalia to deliver what is known today as the French largest battery storage system.

In 2021 the country sought 40MW/40MWh of BESS across several regions, which appears to have been dropped, but was then reopened again last year, still seeking 40MWh of BESS. Contracts will cover design, ...

French renewable energy company Voltalia has completed the expansion of a renewable energy plant in French Guiana, adding a battery energy storage system (BESS) of 10.6MWh. The Paris-listed company announced the commissioning of the Sable Blanc solar-plus-storage project yesterday (10 May).

Lausanne-headquartered Alpiq has acquired a massive BESS project in France from UK-based developer Harmony Energy as it seeks to expand its flexible asset portfolio. The 100 MW/200 MWh Marronniers project is located in the department of Oise, north of Paris, and scheduled to be commissioned in 2026.

The Sable Blanc BESS will timeshift the solar PV to the evening once production tails off under a 20-year tariff agreement and will replace diesel generator capacity. The existing BESS in Toco is mainly providing frequency regulation as well as arbitrage.

View the latest global tenders for bess from Africa, the Americas, Asia, Australia, Europe, the Middle East, and other countries. Find global tender information, RFPs, RFQs, ICBs, bidding contracts, and invitations to bid for bess tenders published by various government departments, the World Bank, the United Nations, multilateral funding ...

Norway-based IPP Scatec has won preferred bidder status for a 103MW/412MWh battery energy storage system (BESS) project in South Africa, part of a 513MW tender. The firm has won the award for the Mogobe BESS, one of four to be granted preferred bidder status under the Battery Energy Storage Independent Power Producer Procurement ...

Bess tenders French Guiana

Source new opportunities with the biggest and most comprehensive platform for French Guiana e tenders and eProcurement. Track over a hundred verified tenders from public and private authorities in French Guiana. Discover 50000+ fresh opportunities daily and win lucrative contracts across French Guiana and the world.

The tender requires them to be available for two full operational cycles (charge and discharge) per day with an availability of at least 95%. GUVNL will enter into a Battery Energy Storage Purchase Agreement (BESPA) with ...

Voltaia is the sole winner of the fifth period of the CRE 4 tender for non-interconnected areas for ground-based solar power plants in French Guiana. The project, called "Parc Sable Blanc", combines a five-megawatt photovoltaic power plant with a lithium-ion battery storage facility with a capacity of 5 megawatts and of 9.3 megawatt-hours.

Scatec has also won projects in that, and started commercial operations on a project with 1,140MWh of BESS capacity in December 2023. The same month saw Saudi Arabia-based IPP ACWA Power sign a PPA with the ...
