Solar Home Systems - Improving the lives of rural, off-grid communities in Mozambique "Our living conditions have improved; we will never again have to sleep in the dark". This is the story of the Jonasse family who have purchased a solar home system under the UK Aid funded BRILHO Energy Mozambique project.

Mozambique's solar market is still at a nascent stage but is growing steadily largely due to the support provided by different multiple donor funded programmes and innovative financing mechanisms such as Pay-as-you-go (PAYGO).

1kW - 3kW Off-grid Systems. 1kW - 3kW off-grid systems are not quite enough to power your main home but could be enough for a weekend cabin, outbuilding, home office, holiday home, summer house or workshop.. A 1200W off-grid solar kit would generate enough energy to run a small refrigerator, small appliances, charge a phone and run a couple of light bulbs.
