

# Best sun panels 2024 Georgia

Are solar panels a good investment in Georgia?

With solar panels, you reduce your consumption of fossil fuel electricity. Long payback period: Because Georgia has below-average electric tariffs, the savings per kilowatt-hour of solar electricity are also lower. As a result, your solar payback period can extend to more than 10 years.

How can I save money on solar panels in Georgia?

Take advantage of low-interest solar loans: Georgia has a state net billing policy but no financial incentives to reduce the cost of solar panels. After claiming the 30% federal tax credit, solar customers do not have access to additional rebates or state tax credits to cover the remaining 70% of project costs.

How much sun does Georgia get a day?

Georgia gets about 5 peak sun hours per day, which is sunnier than most places east of the Mississippi river, but not the sunniest in the country. That level of sun means your solar panels will produce a bit more energy here than elsewhere in the Eastern U.S., and you could charge an energy storage system faster.

Are REC Solar panels a good choice?

REC Solar's lineup of at least 20 individual solar panel models including the REC Alpha Pure-R REC430AA is known for mostly excellent 25-year output warranties stretching to 92% efficiency and high wind, snow and load tolerances. The company's products are a solid choice for climates ranging from benign to harsh, earning them a spot on our list.

To help you make the right decision, we've put together this comprehensive guide to the best solar companies in Georgia, as rated by our SolarReviews experts and Georgia residents who've already gone solar.

Key Takeaways

- o The ideal angle for solar panels is influenced by factors like roof shape, weather, and geographical location.
- o South-facing is the optimal direction for solar panels in the Northern Hemisphere, including Georgia.
- o Even if your roof doesn't face south, alternatives like ground-mounted panels can be viable.
- o Consulting with a solar installation ...
