Water resistance test This test simulates the incorrect use of a battery. To protect the electronics, do not clean the battery with a direct water splash and absolutely never use a high-pressure washer. A battery is subjected to high water pressure of up to 100 bar from various angles. This is how we test its water resistance.

The Performance Frame 400 battery from Bosch is a reliable, long-lasting energy storage device without memory effect and self-discharge. The Battery Management System, or BMS, protects the battery against overload, undervoltage and overheating. A high-quality single-cell monitoring (SCM) measures the voltage of each individual cell.

It would not! Recommendations for 30-60% charging are more aimed at winterizing or 2-3 month storage. Daily to weekly use of a Bosch battery----a user should always feel comfortable topping off that battery fully to 100%. With no memory, there is not detriment to topping off (i.e. charging an 80% battery to 100% or a 95% battery to 100%).

"With Energy Manager, smart-home owners can cover up to 50 percent of their annual energy needs using the electricity they have generated locally," Weiss says. And if the home has its own battery storage unit, this figure can be as high as 70 percent. Bosch aims to make Energy Manager the central power hub for smart homes.
