Who is great Canadian Solar?

Based in Edmonton, Alberta we are Western Canada's most experienced solar contractor, with hundreds of systems in operation in the utility scale, large commercial, and residential markets. Great Canadian Solar completed a 6.5 MW solar PV energy system for Shell Chemicals, consisting of over 14,000 solar modules. This is one of...

Who are the best solar companies in Canada?

Advance Solar Ltd, Alternative Hydro Solutions, Asian Phoenix Resources Ltd, ASL AQFlow Inc, Canadian Hydro Components Ltd, Canadian Turbines Inc, Electrovent, Energy Systems & Design Ltd, First Green Energy Ltd, NORCAN Hydraulic Turbine Inc, Save Green Inc, Simplysales Solar Store, Sunlink Resources, Total Alternative Power - these companies specialize in hydroelectric (microhydro) turbines in Canada.

Where is Canadian Solar located?

While its corporate headquarters are in Ontario, many of the company's manufacturing centers are located in China. In fact, it wasn't until 2011 that Canadian Solar actually opened a manufacturing plant in Canada. Low production costs in China have allowed the company to maintain high production values at a low cost.

Are Canada's Prairies a good source of solar energy?

Canada's Prairies not only the sunniest. But they also offer the greatest potential of solar harvest. Our Canadian prairies are therefore a major resource for harvesting solar energy. Sunshine is an abundant but long forgotten and underutilized natural resource. Learn more about how you can leverage the power of the sun to power your home today!

Where can I install solar panels in Canada?

Our easy-to-install solar packages have reached homes across Canada, from Nova Scotia to Whitehorse and Vancouver Island. Explore our customized solar packages designed to meet your unique energy needs. Each package features high-quality, CSA-certified components, ensuring reliable performance for homes, cabins, and recreational vehicles.

My project was an annually energy-neutral system on a residential property in a rural municipality, something like 14-15000kwh. Prairie Sun Solar was very patient and worked with me through all steps including discovering solar options, questions and concerns, learning about the technology, planning for long term viability on my home and my roofing update options, planning for bi ...

Canada solar experts in

Since 2016, we have installed over 1,500 systems for commercial, agricultural, residential and indigenous clients and all installations are led by experienced journeymen electricians employed by EVOLVsolar.

Please take note of Inverter Experts selling fake Canadian Solar panels. I purchased 6 x 650W panels. When I got home I noticed the dimensions were a bit off from what is specified by Canadian Solar. I then checked the sticker on the back and noticed a "spelling" mistake (Vmo instead of Vmp) as well as all the specifications being wrong. Also searched and ...
