

Cascade energy Finland

What is the role of energy transformation in Finland?

How is energy used in Finland? Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

How will cascade achieve 8,000 GWh of energy savings by 2028?

In 2016, we set a goal to deliver 8,000 GWh of sustained energy savings by 2028. How will we do it? By looking for new and innovative ways to drive energy efficiency and helping our customers operate more efficiently every year. Each Cascade employee plays an important role in achieving our ambitious dream. Everyday we are...

Does Finland use a lot of fossil fuel?

Finland uses a lot less fossil fuel than most countries. But it still has a lot to do to hit its ambitious green energy targets. The country's commitment to biofuels is one of the chief reasons it's ahead of many others. Finland gets 29% of all its energy needs from advanced biofuels. It also has extensive nuclear and hydro networks.

Is Finland a leader in green hydrogen?

Finland is well positioned to leverage green hydrogen as a driver of both economic growth and emission reductions. Speakers at Vaasa EnergyWeek in 2024 outlined Finland's current and future role in the green transition, as a leader in battery and hydrogen solutions. Last year was a year of many dubious records.

2 ???· Significantly increasing the use of renewable energy is crucial in achieving climate goals and a carbon-neutral future. Finland is already one of the world's leading countries in utilising renewable energy: its share of total energy consumption is over 40%, and the goal is to increase this share to 50 percent still during the 2020s.

Cascade Energy Services LP is committed to satisfying the customer and continuously provides safe, reliable and quality service regardless of the project scope. Contact Us. Our History. We began operations in 1997. Since then, we have continued to grow. Read More. Our Commitment.

In November 2021, Cascade Energy established our Employee Stock Ownership Plan (ESOP) to distribute ownership to employees.
