The cost of installing solar panels in Davao City varies depending on several factors, including the size of the system, the type of panels you choose, and the complexity of the installation. On average, homeowners can expect to pay between PHP150,000 to PHP400,000 for a residential solar panel system.

In 2010, GREENERGY was the first private company in the region to offer solar rooftop systems with the launch of GREENERGY Solar in partnership with Sharp Solar of Japan. Manned by competent technical professionals and managers, the company believes that energy supply security should be met using indigenous, clean, and renewable sources.

Davao City, Philippines, situated at latitude 7.0712 and longitude 125.6089, is a favorable location for solar PV power generation due to its tropical climate with consistent sunlight throughout the year. The seasons in this region are primarily distinguished by wet and dry periods rather than temperature fluctuations. On average, each kW of installed solar capacity generates 5.96 ...
