The Netherlands has a coastline that is constantly changing with erosion caused by wind and water. The Dutch people inhabiting the region had at first built primitive dikes to protect their settlements from the sea. [1] In the northern parts of the Netherlands sea levels fell exposing new land at a rate of 5-10 meters per year between 500 BC and 500 AD.

Before the elections, the polls suggested a very tight race. Instead, we've seen a red sweep. While the House results are still pending, the Republicans have secured control of the Senate. They also hold a strong position in the House, and of course, Trump is back as president - an emphatic result that we didn't have to wait long for.
