The main goal of the Smart Solar Hybrid System is to provide affordable green energy solutions for the UN smart facility as well as smart integrated services like security and adaptability. The hybrid setup will be based on Solar PV + Grid + Batteries + Generator.

Unlike other smaller standard sized flat plate solar collectors, we manufacture the thermal solar panels customizing them to fit the contours of the roof surface. We locally pre-fabricate and install the collector as a one-piece unit. Select Solar Systems Ltd. has designed this system for Residential, Commercial or Industrial use.

We are a leading provider of borehole equipping services in Nairobi. We offer a comprehensive range of services, including: Pump selection and installation: We will help you choose the right pump for your borehole and install it correctly. Control panel installation: We will install a control panel to ensure that your pump is running efficiently. ...
