London and Kinshasa, November 24, 2021 - The Democratic Republic of the Congo (DRC) can leverage its abundant cobalt resources and hydroelectric power to become a low-cost and low-emissions producer of ...

History. After making preparations, the CRDB Bank Group of Tanzania, planned to start an operational banking subsidiary in the Democratic Republic of the Congo in 2022. [8] [9] [10] After several delays, the bank opened its first branch in the southeastern city of Lubumbashi, in Haut-Katanga Province on 10 July 2023. Construction work on the bank's headquarters and ...

Democratic Republic of Congo Economic Outlook The economic growth rate fell from 8.8% in 2022 to 7.5% in 2023, due to underperformance in extractive industries (where the growth rate fell from 22.3% in 2022 to 15.4% in 2023). Growth in nonextractive sectors rose from 3.1% in 2022 to 3.6% in 2023, driven by agriculture (up 0.45%), construction and public works (up 0.57%), and ...

For instance, as the producer of 70 percent of the world's cobalt, the DR Congo has influence over the global electric vehicle battery supply chain. Despite this, the DR Congo isn't using this influence for the benefit of the DR Congo people. An estimated 74 percent of people in the DR Congo continue to live in poverty. Some mining revenues ...

4 ???; DR Congo has plans to make the most of its resources in cobalt, nickel, lithium and manganese by building battery cathode precursor factories in the Haut-Katanga Special Economic Zone. The United Nations Economic Commission for Africa will lend a hand.
