Does Djibouti have solar energy?

Djibouti has significant solar energy potential, with an estimated average daily global horizontal irradiance of 4.5 to 7.3 KWh per sq metre across its territory. The construction of the first large-scale solar generation project began in November 2022 in the Gran Bara Desert, which is located in the country's southern region.

How will Djibouti improve electricity access?

In addition to increasing domestic production, it will be important to expand Djibouti's electricity network to ensure that communities across the country - both rural and urban - can be connected to the grid. To that end, the authorities expect to increase electricity access to 100% of the population by 2035, up from 42% in 2021.

How does Djibouti produce electricity?

This is mostly supplied by thermal power plants that utilise oil and diesel as fuel. The two primary plants in Djibouti City have a combined generation capacity of roughly 122 MW, with two smaller plants located in Obock and Tadjoura.

What is the Djibouti office for geothermal energy development?

The Djibouti Office for Geothermal Energy Development (Office Djiboutien de Développement de l'Énergie Géothermique, ODDEG), directly overseen by the presidency, is charged with developing the country's geothermal energy potential. ODDEG was set up in 2013 to expand and operationalise the sector.

Does Djibouti need hydropower?

Djibouti has long relied on trade to supply a significant part of its energy needs due to its lack of hydrocarbons reserves. In recent years it has tapped clean hydropower from neighbouring Ethiopia via interconnected electricity infrastructure.

How much electricity does Djibouti produce in 2021?

Djibouti produced 654,062 MWh of electricity in 2021, according to figures from the Central Bank of Djibouti, representing a 4.3% increase relative to 2020. Improving domestic energy production will require the government to direct private investment towards electricity generation.

Sunik Group (Hong Kong) is the culmination of years of hard work, growth, and diversification in the international trade industry. We engage in international trade through our ventures Bright Exports Limited (Home Appliances), and Kayser Limited (Tires), Sunik International (Motorcycles), and also have our own retail operations in South America (Almacenes Natacha).
