Why did the Dominican Republic start a solar park in 2022?

On 2022, DOMINION completed the commissioning of El Soco photovoltaic solar park in the municipality of Consuelo, Dominican Republic. The energy deficit and dependence on fossil fuels drove the Dominican Republic to step up its commitment to clean energy.

How many solar panels are used in Dominican Republic?

For the construction, which has had an investment of 93M USD, a total of 147,870 solar panels were used. The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has generated more than 500 direct jobs in the region.

Why did the Dominican Republic build a photovoltaic plant?

The energy deficit and dependence on fossil fuels drove the Dominican Republic to step up its commitment to clean energy. DOMINION took on the task of building the photovoltaic plant in this Caribbean country, with an offer that included everything from the design and construction of the plant to its operation and subsequent maintenance.

This park comes after one of our major projects in the country: the construction of Mata de Palma in 2019, the largest park on the island to that date with a capacity of 65 MW and 200,694 solar panels distributed over an area of 75 hectares.

Since 2020- Targeting solar electricians on and off island; Be it in Dominica or on other Caribbean islands. Or for hands On customers willing to save by Doing it themselves. We deliver a pre-designed, pre-mounted and wired, pre ...

Dominica already has substantial geothermal, solar and wind power capacities making the island an ideal location for energy generation from these resources. Those looking to invest in renewable energy will find a welcoming and ...

En 1991, ce qui était alors l'ARGE Solar 91 (aujourd'hui l'Agence Solaire Suisse) a lancé le Prix Solaire Suisse, conjointement avec le Conseiller fédéral Adolf Ogi et son Office fédéral de l'énergie (OFEN). Dans le cadre de ce projet national, les communes, les entreprises privées et les particuliers ont encouragés à construire des installations solaires, et cela explicitement ...
