Automotive and Truck Applications. Today's vehicles are loaded with more electronics than would have been imaginable just a few years ago. The ODYSSEY® battery is designed to keep up with the changes. So go ahead and plug in the phones and tablets - you'll still have massive, reliable starting power for up to 3X longer than conventional batteries.

ACCURE gathers a combination of lab-level and field operation data to forecast and determine the health of batteries, yielding important insights on everything from battery lifetimes to optimal operating schedules. The company's tech leverages a predictive analytics platform based on AI, field data and modelling.

ACCURE's predictive battery analytics platform substantially reduces the risk of thermal runaway by using AI, machine learning, field data, and modeling in a cloud computing platform that continuously monitors and evaluates battery energy storage systems (BESS) and EV fleet batteries. The software identifies anomalies, manufacturing defects ...

Construction has started on the first major solar-plus-storage project in the Dominican Republic, which features a 24.8MW/99MWh battery energy storage system (BESS). The Comisi n Nacional De Energia (CNE) of the Dominican Republic announced the start of work on the Dominicana Azul solar project shortly in late December (22 December).

One example of such a pragmatic solution was found by ACCURE when analysing the temperatures of battery containers during the commissioning phases. One plausible solution to this riddle is using a dehumidifier after water damage.

Dominican Republic lead the way in terms of regulation, followed by Jamaica, the Bahamas, Puerto Rico and the Cayman Islands. Battery import costs and recycling challenges could hamper long-term growth in LAC. Growth in NCRE goes hand in hand with storage and ancillary services (e.g., reserve power, voltage regulation, variable frequency drives).

By combining cutting-edge artificial intelligence with deep expert knowledge of batteries, we bring a new level of clarity to energy storage.
