Is AMEA power launching a green hydrogen facility in Egypt?

AMEA Power's Green Hydrogen Facility Renewable energy company AMEA Power has signed an agreement to establish a green hydrogen facility in Egypt. The plant will utilize around 500 MW of renewable energy for hydrogen production, which will be primarily aimed at exporting to European markets.

Will Egypt be able to harness renewables for hydrogen production?

The move follows Egypt's Petroleum Minister, Tarek El Molla, saying the country planned for renewables to make up 60% of its energy mix by 2030. Its location in the global "sun belt" means it averages 9-11 hours of sunshine a day, with few cloudy days, giving it high potential for harnessing renewables for hydrogen production.

What does EM3 mean for energy and carbon savings?

The EM3 philosophy for energy and carbon savings is very much focused on decarbonisation by delivering projects that, first and foremost, eliminate waste and make the facility more efficient. The next priority projects or initiatives are the deployment of renewable electricity and the electrification of heat.

How much green ammonia will Egypt generate a year?

The project, set to start operations by 2027, will generate over one million tons of green ammonia annually. Set to support Egypt's clean energy goals under the Paris Agreement and COP27, the project is poised to position the country at the forefront of the global energy transition.

Will EGP 2 trillion be needed in Egypt's energy sector?

The International Finance Corporation (IFC) believes that EGP 2 Trillion are required to be brought into Egypt's energy sector in climate-smart investments by 2030. Egypt is expected to overtake South Africa in the next decade to become the largest electricity market in Africa.

Is Egypt facing a crisis in its electricity sector?

Speaking before the House of Representatives in February 2021, Egypt's Minister of Electricity and Renewable Energy Mohamed Shaker said Egypt faced a significant crisis in its electricity sector in 2014, but the authorities implemented several projects to improve service.
