Where is Equinor's third solar plant in Poland?

Equinor's third solar plant in Poland, Lipno has started test production. This brings the company's onshore renewables capacity in Poland to ~200 MW, and further strengthens its position in one of the fastest-growing renewable energy markets in Europe. Lipno is located in the Wielkopolskie province in central Poland.

Does SSE Renewables have a 'solar PV' pipeline in northern Europe?

SSE Renewables has further expanded its solar photovoltaics ('solar PV') pipeline in Northern Europe, with the acquisition of a 400MW portfolio of early-stage projects in Poland from developer IBC Solar. This follows last year's acquisition earlier of circa 500MW of early-stage solar PV projects, also in Poland, from local developer, Optisol.

Why do we use local solar contractors in Poland?

"By using local contractors, we contribute to building knowledge and skills within solar developments in the Polish supplier industry," says Wojciech Cetnarski, CEO of Wento. Equinor's second Polish solar plant, Zagórzyca has started test production.

Will SSE Renewables invest in Poland?

No significant capex will be committed by SSE Renewables until final investment decisions have been taken. Richard Cave-Bigley, Director of Solar & Battery, SSE Renewables, said: "We see Poland as one of the fastest growing solar markets in Europe and these two deals enable us to develop our pipeline with European partners.

Who is bringing energy from Zagórzyca to Poland?

Equinor's wholly owned energy trading house Danske Commodities will be responsible for marketing and bringing the electricity from Zagórzyca to the Polish power market. Around 500 people were involved in the construction of Zagórzyca that comprises 111,000 solar panels over an area of around 55 hectares.

Will Optisol buy 900MW solar projects in Poland?

This follows last year's acquisition earlier of circa 500MW of early-stage solar PV projects, also in Poland, from local developer, Optisol. Taken together, the two solar portfolios bring the company's prospective pipeline of solar PV projects in Poland to 900MW.

The European Commission has given the green light to a EUR1.2 billion (\$1.3 billion) state aid program in Poland that provides direct grants to companies producing solar panels, batteries, heat...

The approval of the Elaine Solar Farm comes just three months after Elgin received government authorisation to develop the 60 MW Shady Creek Solar Farm. The company also has a project of 60MW/120MWh battery energy storage system near Yarragon in Victoria's Gippsland region. For more renewable and solar news,
