

Emergi lite central battery system Marshall Islands

Lithium ion phosphate battery offering 120 minutes of emergency lighting; Battery over/under charge protection; Universal voltage 120V through 347V 60Hz; Rated for 5°C to 45°C; Suitable for wet locations; Meets IP65 rating; ROHS compliant; cUL approved to CSA C22.2 No, 141-15

EMERGI-LITE CENTRAL & INVERTER SYSTEMS
o Electronic and magnetic ballast E compatible
o Custom voltages available
o Automatic event, test and alarm log
o LCD display ... Battery System is provided standard with 10 year, maintenance free, sealed valve regulated, front terminals Lead-Calcium batteries. 20 year sealed ...

High temperature lead-calcium battery ; High-efficacy LED emergency heads outperform traditional 50W halogen lamps; Innovative head design: four-LED and dual-driver provide illumination even in case of unexpected component failure; Product features stainless steel exterior hardware; Simple and easy to install on walls, poles, columns or struts.

Emergi-Lite offers an extensive and complete range of central power supply systems and has an appropriate solution for every type of building. The central power supply systems range is subdivided into two categories of central systems: AC/AC static inverter systems and AC/DC power supply systems.

Emergi-Lite provides range emergency lighting and EMEX central power supply systems, and Naveo cloud-based emergency lighting remote testing, management and monitoring software, all with a focus on supporting them throughout the emergency lighting life cycle, whether it be planning, installing, managing or renewing.

Central battery systems. Emergi-Lite offers an extensive and complete range of central power supply systems and has an appropriate solution for every type of building. The central power supply systems range is subdivided into two categories of central systems: AC/AC static inverter systems and AC/DC power supply systems.

Emergi-Lite® is at the forefront of new, innovative lighting design applications. From the introduction of our first Inverter in 2014 to the latest High-Capacity Mini Inverters Series, our product teams continue to transform the emergency lighting landscape. EMERGI-LITE SOLUTIONS 2014 2015 2018 2019 2021 2023 5 1000W High-Capacity Mini Inverter

Reduces maintenance with standard advanced diagnostics and optional NEXUS® monitoring system compatibility UL 924 Listed; UL listed for wet and damp location 50°F to 104°F (10°C to 40°C); UL listed for cold weather option -40°F to 104°F (-40°C to 40°C); NSF certified for use in food processing plants; NEMA-4X rated; IK10 impact resistance

EMERGI-LITE CENTRAL & INVERTER SYSTEMS -- Emerg-Power Systems EIPS Single Phase Series Interruptible emergency lighting inverter system for LED and non-HID loads only 1.5KVA -16.7KVA 90 min. standard run time Generator compatibility (10x inverter size) Custom and mixed voltages available Automatic event, test and alarm log

Monitoring and testing with Nexus does not interfere with the operation of the lighting system or disrupt the power supply. System design is entirely flexible, with both a wired and wireless version of Nexus available. The Nexus wired system uses a dedicated cable network, making it ideal for areas where wireless communication is not possible.
