KEPCO BVI offers a full range of engineering support, and operations and maintenance services to power companies across the world. Spanning across power generation, transmission and distribution, we leverage our deep technical understanding of power systems design and operations to support power companies at various stages of their asset's ...

The BVIs have a 110v electrical power supply with US style plugs and sockets. There are exceptions to this rule at some villas where the owners are from other countries and may have brought their electrical appliances over from their country of origin but generally, 110v / US plugs and sockets is the rule.
