

A render of the Corby BESS project. Image: NextEra. NextEra Energy Resources (NEER) has become the next IPP to seek approval of a renewable energy development incorporating battery storage via the California Energy Commission's (CEC's) opt-in process, as permitted under Assembly Bill (AB) 205.

Two UK battery energy storage systems (BESS) under development by Japanese engineering firm Nippon Koei's Netherlands-based subsidiary have reached financial close. The two 49.5MW BESS are located ...

10 Mar 2023 The Energy Storage Coalition released its Common Declaration #energy storage, #renewables 1 Apr 2022 Energy Security Needs Energy Storage #campaigns Newsletter Stay connected, sign up to receive our updates. Follow us. Contact. info@energystoragecoalition .

Two UK battery energy storage systems (BESS) under development by Japanese engineering firm Nippon Koei's Netherlands-based subsidiary have reached financial close. The two 49.5MW BESS are located in Tollgate and Cuxton, near London, with Nippon Koei Energy Europe B.V (NKEE) leading the planning and development, delivery of the EPC and ...

Renewable energy developer TagEnergy has energised what it claims is the UK's largest transmission-connected battery energy storage system (BESS): the 100MW/200MWh Lakeside project in North Yorkshire.

The Energy Storage Report is now available to download. In it, you'll find the best of our content from Energy-Storage.news Premium and PV Tech Power, as well as new articles covering deployments, technology, policy and finance in the energy storage market.. Energy storage continues to go from strength to strength as a sector, with the buildout in ...

We model how the most promising technologies could become part of a future energy system that integrates low-carbon power from intermittent, renewable sources with power from the existing grid. For more information, see our ...

Energy-Storage.news" publisher Solar Media will host the 9th annual Energy Storage Summit EU in London, 20-21 February 2024. This year it is moving to a larger venue, bringing together Europe's leading investors, policymakers, developers, utilities, energy buyers and service providers all in one place. Visit the official site for more info.

Global energy storage developer Eku Energy has started constructing two UK battery energy storage systems (BESS), totalling 130MWh of capacity. The two BESS, situated in Basildon, Essex, and Loudwater, Buckinghamshire, will utilise NHOA Energy's, a developer of turn-key energy storage systems, battery

technology marking the company's entry ...

Global decarbonisation targets are impossible without increasing the pace of long-duration energy storage (LDES) adoption 50 times over by 2040, according to the LDES Council. ... London, UK. Energy Storage Summit 2025. February 17 - February 19, 2025. London, UK. Green Hydrogen Summit West Coast 2025. February 26 - February 27, 2025.

Lakeside Energy Park's 100MW/200MWh facility is now the largest transmission connected BESS project in the UK following energisation. The new facility will boost the capacity and flexibility of the network, helping to balance the system by soaking up surplus clean electricity and discharging it back when the grid needs it.

Lightsource bp has announced that it has been granted full planning permission for its first UK standalone battery energy storage system (BESS). The Pentir Energy Storage project, to be located near Bangor in ...

Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and fireside chats from industry leaders focusing on accelerating the market for energy storage across the country. ... London, UK. UK Solar Summit 2025 will look at ...

Irish energy trading and services company ElectroRoute, a subsidiary of Mitsubishi, has announced it will add to its London-based team and expand into the UK. It already manages 1.9GW of assets in Ireland, including over 250MW energy storage, and now plans to substantially expand its UK operations over the coming months.

Kona Energy is one of the UK's leading clean energy development companies. The company is focused upon developing grid-scale battery energy storage projects. These flexible assets are key to balancing energy supply and demand and increasing the utilisation of renewable power on the electricity system.

The Philippines" first large-scale solar-plus-storage hybrid (pictured), was commissioned in early 2022. Image: ACEN. The Philippines Department of Energy (DOE) has outlined new draft market rules and policies for energy storage, a month after the country allowed 100% foreign ownership of renewable energy assets.

A total of about US\$7 billion support for domestic electric vehicle (EV) and stationary energy storage battery value chains will be paid out through the law. Energy-Storage.news" publisher Solar Media will host the 5th Energy Storage Summit USA, 28-29 March 2023 in Austin, Texas. Featuring a packed programme of panels, presentations and ...

We model how the most promising technologies could become part of a future energy system that integrates low-carbon power from intermittent, renewable sources with power from the existing grid. For more information, see our poster on energy storage for balancing intermittent renewables, or get in touch with Sheridan Few or Ajay Gambhir

Following February's excellent Energy Storage Summit at London's Victoria Park Plaza hotel and hosted by our publisher Solar Media, here's a short series of videos posing some of the big questions around energy storage, renewables, climate change, business and the industry, and more. Five things we learned from Energy Storage Summit 2019 ...

In addition to Australia's support, the New Zealand Government contributed \$2.5 million to relocate and restore Niue's Battery Energy Storage System (BESS). This funding has allowed the Ministry to repair the grid control system, procure necessary fuel tanks, and install cabling and connections.

Till recently, large scale energy storage projects were not possible in the UK, as planning legislation limited storage project to 50MW in England and 350MW in Wales. These were relaxed in July, to help increase ...

Energy-Storage.news reported a while back on the completion of an expansion at continental France's largest battery energy storage system (BESS) project. BESS capacity at the TotalEnergies refinery site in Dunkirk, northern France, is now 61MW/61MWh over two phases, with the most recent 36MW/36MWh addition completed shortly before the end of ...

Lightsource bp has announced that it has been granted full planning permission for its first UK standalone battery energy storage system (BESS). The Pentir Energy Storage project, to be located near Bangor in Wales, will have a 57MW/228MWh capacity, with a planned 40-year operational lifespan.

Irish energy trading and services company ElectroRoute, a subsidiary of Mitsubishi, has announced it will add to its London-based team and expand into the UK. It already manages 1.9GW of assets in Ireland, including ...
