

What does the Belize energy unit do?

The Belize Energy Unit is responsible for the production, delivery, and use of energy in Belize. Quarry permits are authorized by the Inspector of Miners while mining licenses are granted by the Minister of Natural Resources and Agriculture.

What is the energy sector like in Belize?

This page is part of Global Energy Monitor's Latin America Energy Portal. Belize relies heavily on fossil fuels, especially in its transport sector, but renewables play an important role in the electrical sector.

Where does the energy in Belize come from?

Almost half the energy in Belize comes from hydroelectric power and biomass. BEL purchases 71.5% of its electricity from five domestic independent power producers (IPPs) which produce much of the remaining energy--about 55.6%--of all the electrical needs of the country, and about 40% from a Mexican government-owned electric utility.

Why is Belize included in this energy Snapshot series?

Although not an island nation, Belize is included in this energy snapshot series because of the small diesel systems used to power its islands and the fact that it is a member of the Caribbean Community (CARICOM), an alliance of 15 Caribbean nations in the region.

Who is Energy Laboratories?

Energy Laboratories, Inc., the leader in chemical and environmental analysis for companies throughout North America. Our depth of knowledge and years of experience means we can meet the full spectrum of analytical testing needs for water, waste, soil, air and petroleum products. Need to make an order?

How much does electricity cost in Belize?

Belize's utility rates are approximately \$0.22 per kilowatt-hour (kWh), lower than the Caribbean regional average of \$0.33/kWh because of existing renewable energy projects, but still high compared with U.S. mainland rates.

This profile provides a snapshot of the energy landscape of Belize, a Central American country bordering Mexico to the north, Guatemala to the west and south, and the Caribbean Sea to the east. Although not an island nation, Belize is included in this energy snapshot series because it is a member of the Caribbean Community (CARICOM), an ...
