

Enertech systems Micronesia

Who are Enertech?

Enertech are a company with vast experience in the Food and Pharmaceutical industries, where a high standard of hygiene and quality installation is required. Our team of highly skilled Industrial Insulation tradesmen have a wealth of experience in the lagging industry. Enertech's team is dedicated to bringing you the best in their field.

How does the geography of Micronesia affect electricity?

The single island of Kosrae has an electrification rate of 98%, while Chuuk, spread across seven major island groups, achieves a rate of 26%.⁵ Aside from limiting access to electricity, the geography of the Federated States of Micronesia has several other adverse effects on utility operations.

Does Micronesia have a state-owned utility company?

state-owned electric utility company. Because the Federated States of Micronesia is so geographically dispersed, three of the four utilities must serve a populous core island or group of islands as well as numerous remote islands; the Kosrae Utility Authority is the only utility that serves a single island.

What industries are insulated by EnerTech?

Enertech has insulated all types of industries such as Process, Chemical, Oil plants, and Pipework*. Enertech is vastly experienced in working within Food and Pharmaceutical areas which require a high standard of hygiene as well as quality installation.*

What are the guiding principles for energy development in Micronesia?

In addition, the policy establishes the following guiding principles for energy development in the Federated States of Micronesia: (1) the spread of benefits to disadvantaged communities, (2) increased public awareness and local capacity, (3) private sector involvement, and (4) community solutions.
