

A group of investors from the Federation of Bosnia and Herzegovina (FBiH) is planning to develop a solar power plant in Ljubinje, located in the Republic of Srpska (RS), on an 85-hectare site. They are currently seeking a concession from the RS Government and have received positive initial feedback regarding their proposal.

In December 2022, the Energy Community Ministerial Council adopted 2030 climate and energy targets. According to these, Bosnia and Herzegovina needs to achieve a 43.6 per cent share of renewables in gross final consumption of energy, and to reduce its greenhouse gas emissions by 41.2 per cent compared to 1990 levels - requiring a steady ...

It is an affiliate of Profine Group from Germany. Just this week Profine Energy said it would build two solar power plants with a combined capacity of 550 MW in Bosnia and Herzegovina and Serbia, with battery storage systems. In Bulgaria, it is developing a floating solar power project with an expected capacity of 500 MW to 1.5 GW.

Although Bosnia and Herzegovina has energy sources such as geothermal, solar and wind, the primary sources of electricity supply are from hydroelectric power plants and thermal power plants ...

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables. Bosnia and Herzegovina is well endowed with renewable energy resource potential; however, the sector is still in its initial stage of development.

Energy is actively working to create a low-carbon future. Across 65 sites, our 490 MW operational portfolio delivers clean and reliable electricity to a broad range of communities, companies, and utilities. In parallel, we are also developing greenfield projects in selected markets across Central and Eastern Europe.
