EnSys Energy is a strategic energy software,data and consulting firmwith more than 30 years of experience in the petroleum industry. Our specialty is the downstream where we cover crude and non-crudes supply,refining,logistics,trade,product demand and regulation.

Over the past 25 years, EnSys has undertaken numerous studies which have included reformulated, ultra-low-sulfur and EURO III/IV/V gasoline and diesel, commercial and military jet fuels (Jet-A1, JP-8, JP-11) and marine fuels. We provide researched and modeled capacity and yield profiles on refineries worldwide.

In our most recent assignment EnSys supported the CFTC in a prominent crude oil market manipulation case. Through our refinery and global modeling, we provide the ability to assess the supply cost and market impacts of new - generally regulatory - initiatives on petroleum products quality.
