What challenges does the national electric system face in Cuba?

The National Electric System (SEN) faces far-reaching technical challenges that threaten the economic and social development of Cuba. After more than forty years of operation without capital maintenance, the basic thermoelectric generation infrastructure, as well as its distribution capacity, have collapsed.

How will sanctions affect Cuba's electric power system?

The real impact of the sanctions on the island's Electric Power System cannot be minimized. The damage to this sector, between March 2023 and February of this year, amounted to 388,239,830 dollars, according to official estimates from Cuba.

What happened to Cuba's electricity system in 2024?

On Friday, October 18, 2024, there was a total outage of Cuba's National Electric Power System (SEN). By Tuesday, October 22, the system had still not fully recovered. By any standard, this represents a dramatic deterioration of the island's already precarious energy conditions.

What happened to Cuba's energy grid?

People gather in a plaza as Cuba is hit by an island-wide blackout, in Havana, Cuba, October 18, 2024. Cuba's energy grid has collapsed, leaving millions without power, the latest in a series of failures on an island struggling from creaking infrastructure, natural disasters and economic turmoil.

How many people were left without electricity in Cuba?

(AP Photo/Ramon Espinosa) HAVANA (AP) -- Millions of people in Cuba were left without electricity for two days after the nation's energy grid went down when one of the island's major power plants failed. The widespread blackout that swept across the country was the worst in years.

Why is the Cuban electric power system losing its operations?

The so-called thermal generation is the basis of the Cuban Electric Power System, but it suffers from the handicap of an aging and overexploited infrastructure. In addition, it has been losing part of its operations, following the withdrawal of the Mariel, Rent#233;, Nuevitas units and the historic Tallapiedra plant in Havana.
