Harrison Poultry produces roughly 315,000,000 live pounds of chicken per year. KE worked with the poultry producer on a new build for a feed mill facility in Bethlehem, GA. In the past, Harrison had worked with a local supplier, but this job was beyond their capabilities. As a result, Harrison Poultry reached out to Knobelsdorff.

Knobelsdorff started over 35 years ago in a small garage, founded on a simple but powerful commitment: to deliver reliable, high-quality electrical services to our local community. What began as a small operation has grown into a multifaceted company with four divisions, projects across the nation, and a presence that reaches even beyond our ...

Knobelsdorff is a trusted industrial electrical contractor providing top-notch automation and controls, electrical, engineering, renewable energy, and power services in Minnesota. Knobelsdorff started over 35 years ago in a small garage, founded on a simple but powerful commitment: to deliver reliable, high-quality electrical services to our local community. What began as a small operation has grown into a multifaceted company with four divisions, projects across the nation, and a presence that reaches even beyond our national borders.

Knobelsdorff performed the engineering, procurement and construction (EPC) on the project entirely in-house. The Solution. The project proved to be challenging, primarily because of the schedule, which required most construction over the winter months. Heavy rainfall impeded pile driving and digging thousands of feet of trenches for underground ...
