

Fenecon home Dominican Republic

What is fenecon home 20 & 30?

Unique. Efficient. Energy transition. More independence from energy companies and high electricity prices: FENECON Home 20 & 30 is the energy conversion storage system for single and multi-family homes, agriculture and small commercial enterprises.

What is fenecon home 10?

Further details can be found here in advance in the product sheet. More independence from energy companies and high electricity prices: FENECON Home 10 is the energy conversion storage system for single and multi-family homes.

What is fenecon's 'home' & 'commercial' product series?

With its 'Home' product series, the manufacturer FENECON offers an intelligent home storage solution. With the large-scale storage systems 'Commercial', FENECON offers reliable electricity storage solutions for industry, commerce or energy suppliers.

Why should you choose fenecon?

With the large-scale storage systems 'Commercial', FENECON offers reliable electricity storage solutions for industry, commerce or energy suppliers. Is ideal for private homes and small businesses with their own PV system and a few e-car charging points. It is 3-phase emergency power capable with solar recharging and skew-load capable.

Can fenecon home be activated at any time?

Can be activated at any time and combined as desired. FENECON Home works with lithium iron phosphate (LFP) batteries. These cannot have "thermal runaway" even when damaged due to their cell chemistry. A separate battery management system (BMS) is integrated in the battery tower.

How do I dispose of the fenecon home 20 & 30?

The storage system must not be disposed of with normal household waste. The FENECON Home 20 & 30 is RoHS- and REACH-compliant. Disposal of the product must comply with local regulations for disposal. Avoid exposing the battery modules to high temperatures or direct sunlight.
