

Fiji project solar

Will Fiji become home to the largest solar project in the Pacific?

The island nation of Fiji will become home to the largest solar project of its kind in the Pacific, a 15MW project that will significantly lower the country's reliance on costly imported fossil fuels.

Who is solar Fiji?

With over 18 years of experience in the solar industry and a track record of successfully deploying over 20MWp of solar projects in Australia and the South Pacific, Solar Fiji is your go-to renewable energy service provider in the region. Our quality workmanship and commitment to customer satisfaction set us apart from the competition.

How will Fiji's New solar power project impact the world?

The \$A21 million project is expected to generate enough electricity to transition 14,000 Fijian households to solar energy and will dramatically reduce Fiji's reliance on imported fossil fuels. Currently, approximately 45% of Fiji's power needs are supplied through fossil fuels, 50% through hydropower, and the remaining 5% from biomass and wind.

Will Fiji be able to source 100 percent of its energy?

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to its goal of sourcing 100 percent of its energy needs from renewable sources.

Why should you choose solar Fiji?

As an official partner of Victron Energy, our quality solar products and services are designed to maximize the longevity of your system, providing energy efficiency and cost savings for the long term. If you're looking for a reliable and experienced renewable energy service provider in the South Pacific, look no further than Solar Fiji.

Will a US\$15 million solar project power Fiji's energy grid?

A press release issued by the IFC, the private sector arm of multilateral development lender the World Bank, revealed plans for a US\$15 million solar project to install at least 15 MW of generation capacity connected to the Energy Fiji grid which supplies 90% of the nation's population.

Suva, Fiji, October 21, 2020- A landmark agreement between Energy Fiji Limited (EFL) and IFC to deliver the largest solar project of its kind in the Pacific to date has been hailed a transformative step that will take the island nation closer to ...

Fiji is embarking on a project to bring solar power to its remote islands. It starts by creating tenders for mini-grid construction, and employing tools to customize energy systems for each community ensuring ...
