Solar panels may be mounted on a pole, a ground support, a wall of a building, a building or vehicle roof, or on a boat deck. The main considerations are day long access to unobstructed sunlight and wire lengths to batteries. Appearance and ease of access for any cleaning etc. should also be considered.

## Floor mounted solar light bracket

A 60mm rounded U-shaped bracket for securing the Lumena Sky-Eye solar powered flood light to a 60mm diameter pole or lamp post. This bracket allows the Sky-Eye light to be mounted further down a pole, rather than directly under the solar panel. To install, simply hook the U bolt around the back of the pole and slide over the front clamp.

The very latest in garden lighting, this attractive flame-effect torch looks just like the real thing. Suitable for mounting in the ground, or on a wall, the lantern is supplied with freestanding base, ground stake and wall bracket. It also uses the latest solar technology, so as well as being fully automatic, wireless and cost-free to run, it works well all year round in typical British ...
