How can kinectrics help Prodigy?

With Prodigy planning the first TNPP project to be focused on powering remote mines, communities and other critical Northern infrastructure in Canada, Kinectrics' decorated history of providing trusted lifecycle services for nuclear projects internationally brings strong capabilities to bolster Prodigy's efforts.

Who is Q Energy Europe?

Q ENERGY France Q ENERGY Europe GmbH is a renewable energy solutions provider specializing in on-shore and off-shore wind projects, energy storage, and hybrid renewable energy projects. They offer reliable, cost-effective, and decarbonized solutions to support the energy transition to renewables. 11. Direct Energie

How will kinectrics support prodigy's TNPP technology development?

Under the agreements in place, Kinectrics will support Prodigy's TNPP technology development through the provision of technical services, including safety analysis, licensing, engineering, and equipment fabrication.

France is committed to achieving carbon neutrality by 2050, with ambitious targets set for 2030 to reduce the share of nuclear energy and increase renewable capacity. Achieving these goals necessitates a reduction in fossil fuel usage and the development of a more resilient energy mix.
