How much does the franklinwh home power solution cost?

As an estimate, you can expect the FranklinWH Home Power Solution (including both the aPower and the aGate) to cost about \$10,000. If you want to install the Home Power Solution as part of a solar-plus-storage system, battery costs are just one part of the equation.

Who is franklinwh?

FranklinWH is a research-driven company focused on next-generation residential energy management and storage solutions. Headquartered in the San Francisco Bay Area, FranklinWH's team has decades of experience in energy systems, from design, through manufacturing, to sales and installation.

Does franklinwh offer a warranty?

All batteries lose some of their ability to hold a charge over time after extended usage, whether it's an electric vehicle battery, a home energy battery, or a rechargeable AA battery. This is why FranklinWH offers a warranty that guarantees a certain percentage of storage capacity.

How does the franklinwh app work?

As far as main features go, the FranklinWH app lets you monitor your solar energy production and your home's energy consumption, view historical energy data about your home and choose your battery's operating mode. You'll be able to pick between three different modes to set.

Who is franklinwh energy storage?

About FranklinWH FranklinWH Energy Storage is the manufacturer of the Franklin Home Power system. FranklinWH is a research-driven company focused on next-generation residential energy management and storage solutions.

Does the franklinwh apower work with solar panels?

The FranklinWH aPower pairs well with solar panel systems, especially if your utility has reduced or removed net metering, introduced time-of-use rates, or instituted demand charges for residential electricity consumers.

aPower 2. Whole home backup can be achieved in most cases with a single aPower 2 due to its robust 15 kWh capacity, 10 kW discharge rate, 185LRA output for large HVAC usage and 8 kW charge rate.

With Franklin Home Power, you'll have two boxes on your wall: the aPower and the aGate. The aPower is the larger box that contains the actual battery, as well as the AC-coupled inverter.

FranklinWH Energy Storage Inc. aPower X-20 Manufacturer Reviews (6) Get a quote AC-coupled to seamlessly add to an existing solar system NMC battery chemistry for a more affordable storage system Provides backup power for power outages and blackouts Stores excess solar energy during the day and use it
