What are France's energy savings plans?

Our Standards: The Thomson Reuters Trust Principles. France launched a national energy savings plan on Thursday, banking on a push to turn off lights and lower thermostats to avoid power and gas cuts over the winter.

Why did France launch a national energy savings plan?

PARIS, Oct 6 (Reuters) - France launched a national energy savings plan on Thursday, banking on a push to turn off lights and lower thermostats to avoid power and gas cuts over the winter.

How can France prevent energy shortages?

France implemented a 'sobriety plan' to prevent energy shortages with the aim of lowering total energy consumption by 10% within two years. This experience is instructive for other countries considering how to manage high energy prices and reach net zero, as another winter energy crunch possibly looms.

What is France's 'sobriety' plan?

Earlier this month, France unveiled its plan for 'sobriety' - or energy sobriety. The country aims to reduce energy consumption by 10 per cent by 2024 using key measures like reducing heating in offices and turning off shop lighting at night.

Does France use a lot of energy?

The government owns almost a third of France's buildings, which consume nearly the same amount of energy as metropolitan Paris, according to Stanislas Guerini, the Minister of Public Transformation and Service. So, looking inwards, the country has cut hot water in public buildings and heating is limited to 19C.

Where is France's largest battery energy storage system located?

reported a while back on the completion of an expansion at continental France's largest battery energy storage system (BESS) project. BESS capacity at the TotalEnergies refinery site in Dunkirk, northern France, is now 61MW/61MWh over two phases, with the most recent 36MW/36MWh addition completed shortly before the end of 2021

The island environment is also ideal for testing applications and energy policies on a wide scale: as a living lab for smart grid applications, electrical driving, medium sized solar projects, updates on wind performance and energy saving ...
