

Deep Constructor is now operated by Technip UK and is fitted out as a deep water pipe layer and multipurpose subsea construction vessel. Since the initial delivery, KNUD E. HANSEN has been involved in numerous conversions and refits of both this vessel and her sister ships as their roles have evolved over time.

In Europe, the North Sea has become a focal point for CCS (carbon capture and storage) activities, buoyed by strong government support. Cranga elaborated on Technip Energies' involvement in various reference projects across the region, including FEED projects for power plants and carbon capture units in countries like the UK, Norway, Denmark, and France.

iProduction (TM) uses proprietary process technology, allowing you to eliminate tanks, decrease GHG emissions and reduce your footprint while maintaining reliability. This revolutionary approach allows operators onshore to achieve Reid Vapor Pressure (RVP) oil specifications without requiring an excess of conventional equipment.

Technip Energies Sustainable Fuels, Chemicals and Circularity senior vice-president Bhaskar Patel said: "We are pleased to have been selected by TotalEnergies for this project which is fully in line with Technip Energies" ...

3 ???· Technip Energies (PARIS:TE) and LanzaTech Global, Inc. (NASDAQ: LNZA) ("LanzaTech") announced that the U.S. Department of Energy (DOE) Office of Clean Energy Demonstrations (OCED) has committed up to \$200 million in federal funding and authorized the initiation of Phase 1 of their Sustainable Ethylene from CO 2 Utilization with Renewable ...

Technip Energies, GE Vernova and Balfour Beatty are set to deliver a combined cycle plant with an integrated carbon capture system. The plant will feature GE Vernova's 9HA.02 gas turbine and benefit from a 16-year maintenance service contract.

We are continuing to transform the energy industry with the next generation of the iComplete(TM) SuperFrac(TM), purpose-built for pump swaps with flexibles. The SuperFrac(TM) QuickSwap(TM) is a pre-rig-in system that eliminates the need for all lifting devices and is ...

Technip Energies SVP of gas and low carbon energies Mario Tommaselli said: "We are honoured to have been selected by ExxonMobil and its partners to design the Rovuma LNG project. ... "With the global focus on decarbonisation and energy security, the JGC Group is accelerating the promotion of energy transition, and this project is firmly in ...

Technip Energies, in collaboration with SBM Offshore, has secured a significant contract from TotalEnergies for the development of the GranMorgu Floating Production, Storage, and Offloading vessel. This ambitious project is located approximately 150 kilometres offshore in Block 58, marking the first FPSO development in Suriname.

SBM Offshore designs, builds, installs, and operates offshore floating facilities for the offshore energy industry. As a leading technology provider, we put our marine expertise at ...

Italian company Versalis has announced signing an agreement with Technip Energies, a France-based engineering and technology company for energy transition. Through this collaboration, the companies intend to develop a "theoretically endless plastic recycling loop".

JGC Holdings Corporation (representative director and CEO Masayuki Sato) is pleased to announce that JGC Corporation, in partnership with Technip Energies and NMDC Energy, has been awarded a contract by ADNOC for the engineering, procurement, and construction of the lower-carbon Ruwais LNG project, located in Al Ruwais Industrial City, Abu ...

Combining the unrivalled expertise and experience of two energy transition leaders, Ekwil powers progress with cutting-edge technologies: the Semi-submersible INO by Technip Energies and the Tension Leg Platform Float4Wind[®]; by SBM Offshore.

Technip Energies has secured a front-end engineering design (FEED) contract for the Viking carbon capture and storage (CCS) project in the UK. ... CCUS Strategies in Oil and Gas, reveals that the energy sector accounts for approximately three-quarters of total greenhouse gas emissions and has a key role to play in reducing global warming over ...

Technip Energies (PARIS:TE) in partnership with Universit^é Gustave Eiffel, Valeco, and OPEN-C Foundation, will be leading the PAREF project, an R& D program aimed at accelerating industrial-scale development of floating wind. This project is funded by the French State as part of France 2030 operated by ADEME.

Technip Energies (PARIS:TE) in partnership with Universit^é Gustave Eiffel, Valeco, and OPEN-C Foundation, will be leading the PAREF project, an R& D program aimed ...

The expansion project will produce approximately 16 Mtpa of additional LNG, increasing Qatar's total production from 110 to 126 Mtpa. Arnaud Pieton, CEO of Technip Energies, commented: "We are extremely honoured to have been awarded by QatarEnergy this mega LNG project, along with our long-standing partner CCC, a leading construction company ...

This vessel was designed for Technip (UK) and was constructed at STX Heavy Industries (Korea). The vessel

has twin 2,800 ton reels and has a top tension capacity of 450 tons for laying rigid steel pipes and flexible products up to 18" ...

This cooperation will accelerate the country's energy transition." In July 2023, Sarens completed major works on the three floating foundations for the Provence Grand Large offshore wind farm. To be located off the coast in the Marseille region in France, the project includes three turbines with 8.4MW of capacity.

Technip Energies announced signing two separate Memorandums of Understanding (MoU), one with PCL Industrial Management Inc. and another with Capital Engineering, to work collaboratively on efforts associated with energy transition markets in Canada. ... Scott Martin, Senior Partner with Capital Engineering adds "Capital is very excited ...

The KTJV joint venture, consisting of Technip Energies and KBR, has been selected for a major engineering, procurement, fabrication, and construction project by Lake Charles LNG. The project, pending a final investment decision by Lake Charles LNG, aims to convert the existing import and regasification terminal in Lake Charles, Louisiana, into ...

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Adélie Land (Terre Adélie): This is the French claim on the continent of Antarctica.; Crozet Islands (Îles Crozet): A group of islands in the southern Indian Ocean, located south of Madagascar.; Kerguelen Islands (Archipel des Kerguelen): A volcanic island group in the ...

Technip Energies France, a subsidiary of Technip Energies NV (PARIS: TE) (ISIN: NL0014559478), has agreed to resolve its outstanding matters with the French Parquet National Financier (PNF). The resolution encompasses historical conduct that related to subsea projects undertaken by the former Technip S.A. group between 2008 and 2012.

SBM Offshore designs, builds, installs, and operates offshore floating facilities for the offshore energy industry. As a leading technology provider, we put our marine expertise at the service of a responsible energy transition by reducing emissions from fossil fuel production, while developing cleaner solutions for alternative energy sources.
