Romanian solar panel installers - showing companies in Romania that undertake solar panel installation, including rooftop and standalone solar systems. 196 installers based in Romania are listed below.

*Huawei Digital Power's CSP certification is the official accreditation for partners' service capabilities. CSP-certified partners are fully equipped to provide expert services, including installation, deployment, and O& M of Huawei equipment and solutions.

With an average of 1,900 to 2,400 annual sunlight hours, Romania has significant natural potential for solar PV development. Yet, the country has not set ambitious targets for renewable energy sources, aiming for only 30.7% of its final energy consumption to come from RES by 2030. For solar, this translates into an objective of 5.05 GW, which
