GKinetic Energy Ltd is pleased to announce the promotion of Gary Brennan from Lead Engineer to the position of Chief Technology Officer (CTO). With this strategic appointment, GKinetic aims to further strengthen its ...

GKinetic Energy Ltd. was founded in 2014 and is based in Newcastle West, County Limerick in Ireland. GKinetic is developing a range of innovative hydrokinetic turbines for both river and tidal flows. From the start, one of the main drivers has been the huge market opportunity to harness this reliable and predictable renewable energy resource.

GKinetic provides clean, reliable energy generation from man-made and natural waterways; empowering communities and water-reliant industries worldwide and contributing to global sustainability and energy security. GKinetic offer a range ...

As part of GKinetic's ongoing work in the +CityxChange project, the company showcased one of their 12kW units in the heart of Limerick city from the 19th - 21st of September 2023. The aim of the demonstration was to allow people to see the unit in real-life and share their thoughts and feedback via the following survey being ran independently by NUIG: ...

GKinetic Energy focuses on renewable energy technology within the hydrokinetic energy domain. The company specializes in converting water currents into usable energy through innovative technology. It offers consulting and project management services to support the deployment of its energy solutions serves the energy sector.

Member - GKinetic Energy Ltd. Go back. Innovative turbines that work with nature to generate 100% clean, predictable energy from free-flowing water. Type Company. Founded 2014. Company Size 7. Member Type. innovator. Founders Vincent Mc Cormack. Headquarters 38 Killeline Heights, Rathnaneane, Newcastle West, Co. Limerick, V42 FW61, Ireland.

The Tidal-GES Project's team at the University of Galway has been collaborating over the past months with GKinetic Energy Ltd for the pilot testing and showcase of its CEFA-12 (12kW) #Tidal turbine which was deployed in the #Shannon River at the heart of #LimerickCity between the 19th and the 22nd of September 2023, as part of GKinetic's involvement in the +CityxChange Project.

More for KINETIC ENERGY LTD (14853945) Registered office address 98 Lancaster Road, Newcastle, England, ST5 1DS . Company status Active Company type Private limited Company Incorporated on 8 May 2023. Accounts. First accounts made up to 31 May 2024 due by 8 February 2025 ...

Des turbines innovantes qui fonctionnent avec la nature pour générer une énergie propre et prévisible à 100 % à partir de l'eau qui coule librement.

GKinetic Energy - Provider of vertical axis turbine device for ocean currents, rivers, and canals. Raised funding over 5 rounds from 4 investors. Founded by Vincent Mc Cormack in the year 2014. GKinetic Energy has 133 competitors.

Our founders Vincent and Roisin head to #Milwaukee, #Wisconsin USA next week for the in-person BREW week and to meet with customers and partners. A highlight will be the BREW Demo Day on Wednesday, June 26th where GKinetic Energy Ltd will pitch with the other water technology start-ups from the latest BREW 2.0 Post-Accelerator Cohort. There will be a ...

GKinetic Energy Ltd is pleased to announce the promotion of Gary Brennan from Lead Engineer to the position of Chief Technology Officer (CTO). With this strategic appointment, GKinetic aims to further strengthen its technological capabilities and drive innovative applications of its technology in the renewable energy sector.

GKinetic Energy develops and operates hydrokinetic turbines. The company generates renewable energy from free-flowing water sources, such as oceans, rivers, and canals. GKinetic Energy uses sound engineering principles to create kinetic turbine devices.

GKinetic provides clean, reliable energy generation from man-made and natural waterways; empowering communities and water-reliant industries worldwide and contributing to global sustainability and energy security. GKinetic offer a range of hydrokinetic turbines that instantly generate clean energy from free-flowing water.

GKinetic has developed an innovative hydrokinetic solution that generates 100% clean, predictable energy from flowing water suitable for a number of applications including remote supply, Smart Cities, canals and utility tidal. GKinetic is currently involved in a number of exciting projects and is always open to learning about new opportunities.
