Plug n play solar has been around for a while, but has never taken off (probably because behind-the-meter power is still sketchy and poorly understood). The potential for plug n play solar is huge -- it could mean cheap, zero-configuration solar energy spreading to consumers at the pace of the smartphone, the car or air-conditioning.

Sunbox is an optimized solar power home or office system that allows you to produce clean electricity. Essentially, Sunbox is solar panels for homes or offices that come in a few different package options. Here's a look at the sizes to ...
