The majority of solar panels weigh approximately 20kg per panel and most UK roofs are usually structurally strong enough to support the weight of solar panels. Is your roof the right shape and type? When we think of roofs, most of us envision a standard gable roof, which is shaped by two sloping sides that meet in a point at the top.

Solar inverter output (G98) - solar industry inverters adhere to a 3.68kW regulation unless the customer holds a G99 acceptance letter. Solar energy from panels, when processed through the inverter, is capped at 3.68kW; any excess feeds into the ...

All solar quotes should include information about the duration of an installer's workmanship warranty and product warranties clearly stated on the quotation. Taqon Electrico offers a 1-year workmanship warranty meaning that when a client experience any problem with the system our electrical engineers will take care of it at no extra cost within 1 year of installation.
