

Guatemala roofit solar energy

Is Guatemala a good place to invest in solar energy?

Guatemala is the second largest Central American power market, with a goal to increase renewable energy use. Relatively high levels of solar irradiance and large areas of cleared land give the country a strong potential for increased solar energy development.

Who is roofit solar?

28. May, 2024 Roofit.Solar, an innovative solar roof company, has achieved a historic milestone by becoming the first Estonian business to receive the prestigious "Best of the Best" accolade at the renowned Red Dot Award 2024.

Why did BMR decide to buy a solar farm in Guatemala?

As part of its evaluation process, BMR determined that the solar farm offered a strong return that was supported by Guatemala's well-established and stable regulatory system. BMR navigated a complex and cooperative sales process that involved four owners across three legal jurisdictions.

What are solar roof panels?

Our solar roofing panels are an expertly crafted combination of sleek black roof panels and high-tech photovoltaic cells. Powerful. Aesthetic. Integrated. Our solar roof panels are a 2-in-1 building-integrated photovoltaic (BIPV) solution for your roof.

Where are our solar roof panels made?

Our solar roof panels are made in Europe in accordance with all relevant laws and regulations - and we remain committed to the dream of a sustainable energy system for the future. Our goal is to harness the power of the sun on all levels.

Why should you choose roofit solar?

At Roofit.Solar we build a product for the generations to come, for a sustainable planet, and for the beauty of a sleek, black roof. The trust of our customers is the perfect proof that we are on the right track. We weather and produce sustainable energy at the same time.
